

Thermal Fuse Open

[Resistor ASM - GSVEM HVAC]

UzECC

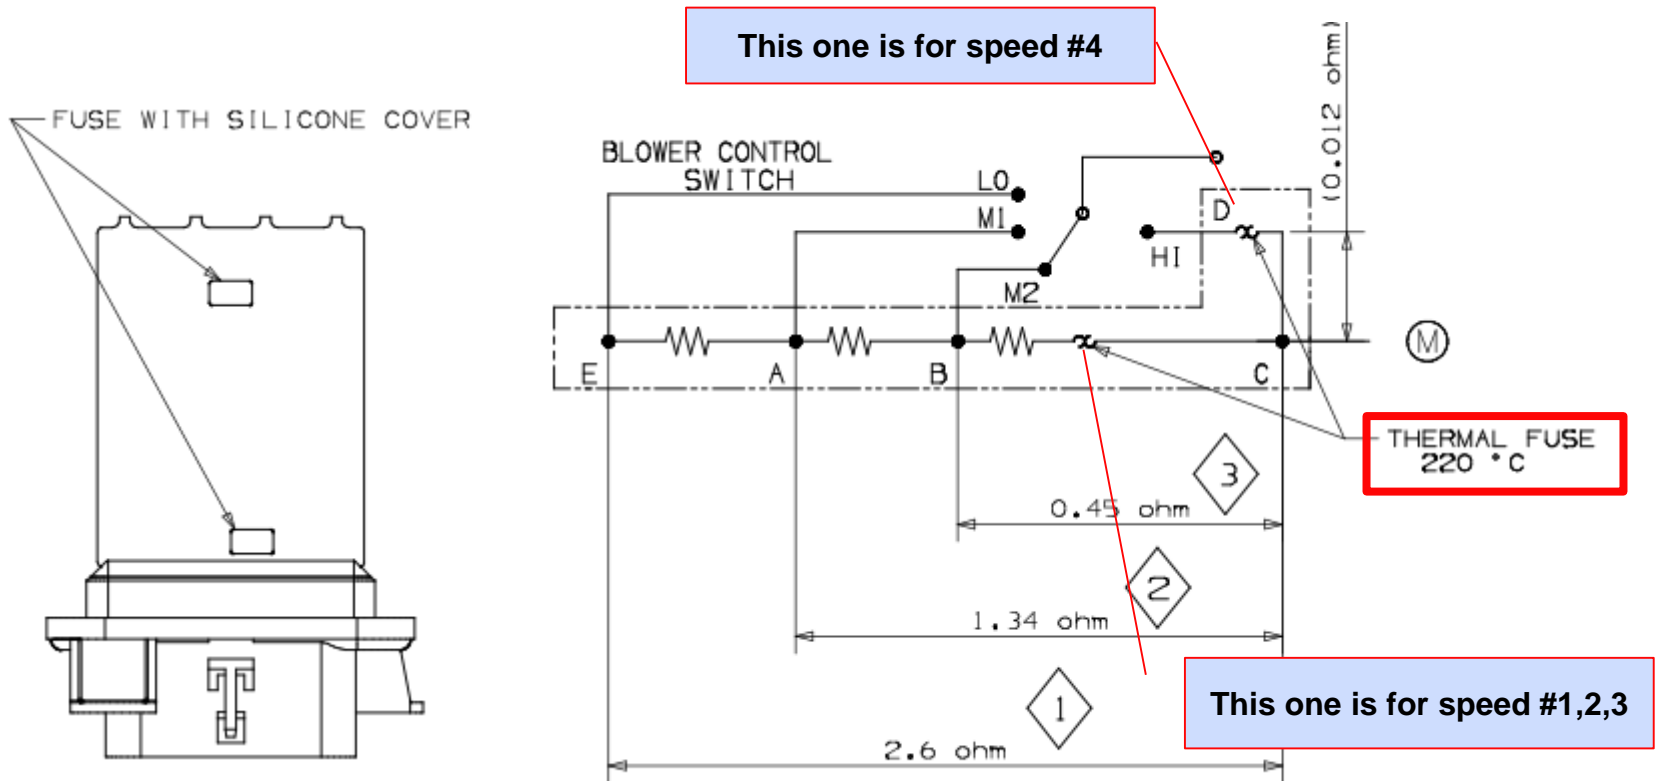

Thermal Fuse Open in Resistor ASM(52429971)

❖ Issue

- Blower motor does not work at speed # 4 in vehicle condition.

❖ Root Cause

- Thermal fuse was opened to protect system
- It's from electric shock in vehicle condition

UzECC Process

- ❖ **Test 100%** with function tester
- ❖ Check **ampere and resistance** with connecting resistor and blower motor for each speed
